

from 2008 to 2010

This is to certify that

Acer Computer Australia

Has cumulatively contributed to the planting of 54393 native seedlings for rural Australia.

Carbon Neutral's mission is to reduce carbon emissions through education and revegetation

As a not for profit company, Carbon Neutral works with hundreds of organisations and thousands of individuals to measure, reduce and offset carbon emissions and support revegetation projects.

Carbon Neutral partners with Men of the Trees WA, Trees for life in South Australia, and Landscapes for Life in Victoria. Together these organisations have contributed over 39 million native trees to the Australian landscape over the past 30 years.
